## Power Everything

The go-to charging solution

We designed Station P from the ground up to deliver convenient nightstand charging for guests' phones, laptops and mobile devices with the latest USB-C and Qi wireless charging standards adopted by Apple and Android devices making it a future proof investment for your rooms. Combined with universal USB charging and two traditional power sockets Station P is the most complete nightstand charging station available.

The low profile design fits well on any nightstand with a decor friendly fabric charging tray, stylish woven cable and micro-suction bottom that holds it securely in place. Combined with best-in-class safety features Station P delivers a stylish charging solution for the world's best hotel rooms.

## USB-C Is Here

Six designs to get you up-to-date

We offer a full suite featuring USB-C and wireless charging, Bluetooth speakers, sound machines and hotel-friendly clocks in a variety of sizes, form factors and styles to best fit your rooms.

## USB-C Is Everywhere

The new charging standard

Apple, Android and virtually every portable device has adopted USB-C making it a must-have for in-room charging.
